GBK Bench Checkweighing Scales

ADAM

The GBK is designed to stand up to the demands of rigorous industrial applications. With its compact stainless steel platform, the GBK fits easily on a cart or table and is ideal for parts counting, batching or routine weighing. For flexible positioning, the pillar-mounted display can be used without the pillar. Oversized rubber feet offer stability, while the cast aluminum frame provides even weight distribution and ensures consistent readings regardless of where the object is placed during weighing. The GBK's intuitive software helps save time and reduces errors when logging data. Powered by mains power cord or the built-in, rechargeable battery, GBK operates anywhere. The GBKM version is suitable for trade use.

The best solution for demanding industrial and manufacturing tasks

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Checkweighing LEDs clearly show under, over and acceptable limits
- Programmable backlight can be set to "always on," "always off" or "light only when weighing"

Key Accessories

ATP thermal printer
Easy-to-use features combined with quick set-up equals a truly versatile thermal printer. A single push-button feed key and three easy-to-read LED indicators make operation simple

Adam DU data collection program
Adam DU software connects a balance to the laboratory network, helping to achieve seamless data collection, transfer and analysis. DU features an easy-to-use interface with a main command window, allowing users to quickly collect information from up to eight Adam balances simultaneously using RS-232 or USB connections

Casters / Wheels
Optional caster wheels provide easy mobility for bench and floor scales. A brake lock prevents movement during use
